

Flow Diagram of seed movement in the Kansas Certified Seed Program

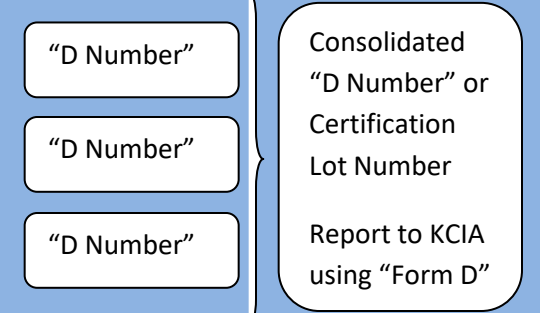

Color represents the reporting responsibilities of each participant in the Kansas Certified Seed Program. Certification seed lot number changes with color and must be properly reported to KCIA. The bicolor boxes indicate where both parties have reporting responsibilities for the transaction. Refer to the certification standards and procedures for further clarification.

Consolidating fields that have passed inspection

Consolidating seed lots that have passed Clean Seed Inspection (CSI) for certification

Blends of Certified Varieties are reported using the "Form D" and receive unique "D" number
