About this directory

The seed producers listed in this directory have applied to the Kansas Crop Improvement Association (KCIA) for inspection of seed production fields. KCIA checks all seed sources to confirm seed eligibility.

Seed produced on these fields is not Certified or Quality Assured until the field has passed inspection and the harvested seed has been properly conditioned, sampled and tested.

Seed meeting certification standards is issued a Certificate of Inspection and may be sold as Certified Seed. Quality Assured seed must meet similar standards.

Kansas Seed Law requires all seed to be properly labeled. The label is your warranty. Each bag of Kansas Certified Seed must be labeled with an official KCIA certification tag.

A completed KCIA Bulk Retail Sale Certificate or Bulk Invoice Label must accompany each bulk sale. Contact KCIA regarding the specific rules for re-selling bulk Certified Seed.

KCIA does not produce, process, buy or sell seed; therefore, assumes no financial responsibility regarding any seed listed herein.

Growers guarantee that Foundation, Registered, Certified or Quality Assured seed sold by them conforms to the standards of the Association in origin, varietal purity and quality. KCIA should be advised of any complaints made to the producer or vendor of seed.

Listing of a producer does not imply that all requirements have been met at time of publishing. Contact KCIA if you have concerns or questions about seed offered as Certified or KCIA Quality Assured.

Plant Variety Protection

The Plant Variety Protection Act (PVPA) makes it possible to protect plant varieties by law. Therefore, it is unlawful to sell, offer for sale or expose for sale, uncertified seed by variety name when it is a variety for which a Certificate of Plant Protection has been issued, specifying sale only as a class of certified seed.

It is the responsibility of the grower to inform the purchaser that a variety is protected and at what level. This may be accomplished on the label by the appropriate statements. The status of varieties listed in this directory is as follows:

Paradise WHEAT

Have you been looking for more than just an average wheat variety?

If so, look no farther then the PREMIUM wheat variety Paradise, sold exclusively through Polansky Seed!

- Medium Early Maturity - 3 days later than Everest!
- Outstanding Mill and Bake quality with excellent loaf volume!
- Good Fall forage production!
- Good test Weight.

Paradise has had an outstanding yield record over 4 years of testing and topped the 2017 K-State yield trial averages.

The Premium wheat variety Paradise has shown excellent stripe rust and good leaf rust resistance with additional resistant to soil borne mosaic and some tolerance to wheat streak mosaic.
