</table>

* Dirty or difficult samples may be subject to an additional charge of $30.00 per hour.

All tests are conducted according to Association of Official Seed Analysts (AOSA) rules.

In order to determine if seed is legally marketable and to properly label and sell seed, a Complete Test (Purity, Germination and Noxious weed exam) is required. A USA Noxious will be conducted to identify weeds that are considered noxious in any of the 50 US states.

Hemp License

When submitting samples of Industrial Hemp, please include a copy of your Hemp License issued by your state (if applicable).

SAMPLE SIZE REQUIREMENTS

AOSA Rules require the following MINIMUM sample sizes.

- Purity/Germ/Noxious: 500 grams or 1.2 pounds
- Purity/Noxious: 500 grams or 1.2 pounds
- Germination: 400 seeds
- TZ: 400 seeds
- Seed Count: 100 grams

TEST LENGTH (subject to current lab sample volume)

- Purity/Noxious/Seed count/TZ: generally reported within 2-4 days of sample receipt.
- Germination: AOSA rules require a 7-day test, however we may extend it up to an additional 7 days if dormancy is suspected in a seed lot.
- Rush Service available to expedite processing.

SAMPLE RETURN POLICY

Due to the value of the seed, you may request to have your sample returned to you upon completion of the testing*. Be sure to mark the appropriate box on the submittal form. You will be billed for the shipping cost of returning the sample.

- * Less all seed utilized in the germination test. The remaining seed will retain its original integrity.
