

Erica Miller Joins KCIA Staff as Administrative Assistant

We are excited to welcome Erica Miller to our KCIA office staff! Erica began as our Administrative Assistant on Nov. 14th. You will likely be hearing from her soon as she will be handling our phones and other office duties, as well as membership and seed certification records as she gets up to speed.

Erica previously worked as an administrative assistant, an office manager, and before that as a florist, all here in Manhattan, KS. She graduated from Chadron State College in Nebraska with a degree in Environmental Biology and a minor in Plant Sciences, but moved to Kansas with her husband in 2006. They are currently in the process of adopting through the Kansas foster system.

When she's not sitting at a computer or filing records, Erica likes to read, work in her vegetable and native plant gardens, and train her Chesapeake Bay Retriever, Nova.

Please welcome Erica to our KCIA family.
