Conditioners can be found [here](#)

September 10, 2020

- **KCIA/KSIA Winter Seed and Crops Conference Canceled for 2021** [read more](#)
- **Proper Labeling of Certified Seed** - Proper labeling of certified seed in retail or wholesale transactions is important. Certification of the seed can be lost if the seed moves improperly or with no label. In addition, applicable state and federal seed laws are in place to protect the purchaser of the seed as well as the certification of the seed. Here is a short guideline to labeling certified seed.
